NEW YORK MEN TO WORK RARE METAL

J. H. Kaiser and A. D. Barnmaster of the Goldfield, Nevada and California Mining company left for the east this week to put the finishing touches on a deal which is to finance the company for the development of a fine deposit of molybdenum just over the line in California and on the borders of the old Sylvania mining district, eight miles from the northern border of Death Valley.

Molybdenum has greatly increased in value of late years because of new uses to which it is being put, and now commands \$3.50 the pound. Its use was formerly limited to tempering steel and mixing in paint intended for covering warships. The Japs have found it efficacious in the preparation of smokeless powder.

Mr. Kaiser's home is in Silver creek, a suburb of Buffalo, N. Y., and Mr. Barnmaster, who has spent his life in the employ of the Lake Shore railroad, is his neighbor. Associated with him are several Oakland, Cal., men and they have planned an active campaign of development for the year.

The mine is but half a mile from the Big Blue silver-copper property which was purchased in January by the Nevada and Lake Superior company of Duluth, Minn.—Reno Journal.

RESULT OF MILL RUN AT RAWHIDE

The run of ore through the Gates mill at Rawhide that was taken from the Truett lease, has been completed, and the result is a gold bar and a silver brick, valued at \$482. The run consisted of fourteen and one-half tons, so that the net returns per ton were \$33.24.

This has far exceeded the expectations of Mr. Truett and his associates, for the ore had been untried, and the mill was a new one in more ways than one; and the first run was nothing more than an experiment for both the ore and the mill. Allowing for waste and the amount of stuff that stuck to the plates, it is a certainty that the ore will run several dollars higher, but the owners of the lease are well satisfied with the returns, for there is any amount of the same kind of work on the dumps, and there is, besides, a great deal of ore that will go into the picture values, that is now being taken from the lease.

The Truett lease adjoins the Miller lease on the Hooligan hill and has now three shafts in operation, shaft No. 3 being down twenty-five feet, with the bottom of the shaft in good shipping ore. The hoist is in place at shaft No. 1, and a three-drill compressor was installed in the same shaft, where the crosscut is in eight feet toward the footwall.

The Truett lease was bought on March 8 from Tom De Armand and G. L. Nelson, and just a month later, the first clean-up was made, and at the same time news of the death of Nelson was received from Bakersfield, Cal. Tom De Armand, one of the early comers, is ill in Reno, and is said to be in a very precarious condition.—Reno Journal.

Gane-Nelson fight pictures at Butler Theater tonight at 7:30 o'clock. Admission 50 cents.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.

"For Rent," "For Rent Furnished" and "For Sale" cards on sale at the Bonanza office.

JESSUP A GOOD LEASERS' CAMP

James T. Wilson, who managed the Desert Queen, the mine that supplied the Reno mill with ore thirty years ago, has taken a lease in Jessup, and reported on his visit to Reno that the property pans an average of \$50 from samples taken for 1000 feet. He says the lease, which is in Delbert Roop's Buster No. 2, is one of the best in the district. When he returns to Jessup he will put two men to work, and a shaft will be sunk 100 feet on the ground.

"The secondary enrichment on the claim," said Wilson, "indicates to me that the values will improve with depth, and we expect to encounter a large body of medium-grade milling ore before we have spent much time on the lease."

The mineralized area at Jessup extends ten miles north and south and is five miles wide. Three hundred people have come into the camp within the last few weeks. It is another leasers' paradise. Two stages and three automobiles bring up the population.

The Hopkins group, in the Jessup mining district, was this week sold by the owners, R. M. Hopkins, S. R. Hopkins and C. H. Stoker, to C. L. Cobb, J. H. Barrett and F. E. Gove, under an option secured by the purchasers thirty days ago.

The group consists of the Mary H. and Mary H. No. 1, and is considered to be one of the best in Jessup. Cobb is a former stock broker on the New York exchange, Barrett has large interests in Rawhide, and Gove is a Denver capitalist, and represents the interests of himself and group of Colorado associates.

During the week, it is also announced, a second big deal in Jessup mining property will be closed upon an option involving the King Solomon claim and all of the property owned and controlled by Murray & Jessup, the original locators, who are interested with Judge Howard of Reno, in the district.—Reno Journal.

MAKE YOUR RESERVATIONS. Persons contemplating going to see the fleet arrive at San Diego should at once make their reservations with ticket agent at T. & G. railroad office.

Round Mountain Antelope Leasing Co.

Owens the Bartlett-Travers Lease on the Famous Antelope Claim at Round Mountain. The Lease Has Two Years to Run

THIS IS A SECOND GOLDFIELD MOHAWK

Two Ledges Have Been Encountered on the Property and a Shaft is Down 65 Feet

We are offering 50,000 shares only of the Treasury Stock of this company at 12 1/2 cents per share to raise money with which to continue the development work.

The sensational strike made on the Paulsen-Halsell ground adjoins this lease. The strike was made ONLY THIRTY FEET FROM OUR SIDE-LINE, and according to surveys and the trend of the ledge IT WILL TRAVERSE OUR GROUND FOR A DISTANCE OF 300 FEET. This ledge, 2 1/2 feet wide, is phenomenally rich and eight inches of it contains specimen or picture ore that will run into the thousands of dollars to the ton, the balance averaging about \$200 to the ton. There is a custom mill within a mile of the property that will treat our ore for \$8 per ton, thus insuring a big profit. The officers and directors of the company are men of the highest standing in Nevada. Henry J. Bartlett, owner of the Round Mountain Nugget and heavily interested in many properties there, and James W. Travers, a pioneer of the district and also heavily interested in many properties there, and Mr. Gibbons, a well-known Tonopah attorney, while Messrs. Hertel and Price are men prominent in the mining industry of the state.
